### Arabic Letters

<table>
<thead>
<tr>
<th>أ</th>
<th>ب</th>
<th>ت</th>
<th>ش</th>
</tr>
</thead>
<tbody>
<tr>
<td>ح</td>
<td>ج</td>
<td>د</td>
<td>ذ</td>
</tr>
<tr>
<td>ر</td>
<td>ن</td>
<td>م</td>
<td>ه</td>
</tr>
</tbody>
</table>

### Instructions:
Please click the correct Arabic letter from the list above and drop it into the correct Arabic letter highlighted in the word below

بيت

### Prototype explanation
1. The purpose of the mastery test is to verify that each learner can correctly identify any Arabic letter they have been taught in any of the 4 orthographic positions.
2. Top portion of the mastery exam will have a list of all of the Arabic letters written out from left to right, top to bottom as shown above.
3. Instructions will appear below that (and will essentially be the same instructions in each case as shown above).
4. Next will be shown an Arabic word (as seen above) with a letter highlighted.
5. Then the learner must choose from the letters above which letter is highlighted in the word.
   a. Each letter in the box will have a drop down menu that shows choices of each of the 4 positions of the Arabic word (again due to technical difficulties that has not been represented here.)
6. The learner will be tested on each of the four orthographic positions of each letter practiced in the learning module.
   a. Various Arabic words will be employed to provide the stimulus for letter recognition.
7. A counter will track the number of correct and incorrect responses which will be given in a tallied total at the end of the mastery test.
