The University

- Located in the friendly college town of Bloomington, Indiana (50 miles south of Indianapolis)
- Founded in 1820
- A public, research/teaching university offering associate, bachelor’s, master’s and doctorate degrees

National Spotlight

- *Newsweek, America’s Hot Colleges, 2006* named IU Bloomington as it’s Hottest Big State School.
- Among the nation’s best “Colleges with a Conscience,” *Princeton Review, 2005*
- *Business Week* has named IU’s Kelley School of Business in the top 10 for undergraduate business programs.
- According to a recent *NY Times* article, IU is 4th in the Big Ten for four-year graduation rates and 5th for a six-year graduation rate.
- *Sports Illustrated on Campus* named Bloomington as a top ten college sports town.
- One of America’s five most beautiful campuses by *The Campus as a Work of Art*
- Home to one of the world’s fastest supercomputers

The Numbers

- 29,562 undergraduate students; 7,442 graduate students
- Students from 50 states, 130 countries
- 36 percent of student body are non-resident students; 64 percent are Indiana residents
- 54% female; 46% male
- 94% of first year students academically eligible to return
- More than 3300 international students
- 1877 full-time faculty
- Undergraduate student to faculty ratio 18-1
- Average undergraduate class size (includes freshman year) 33.4
- Fewer than 6% of classes have 100 students or more
- 13 undergraduate schools
- Programs with direct freshman admit options: Business, Music, HPER, SPEA, the College of Arts and Sciences, Informatics, Journalism, Education
- More than 100 majors, 328 degree programs
- More than 4000 courses offered each semester
- More than 80 overseas study programs in 37 countries in 17 languages
- 95 technology centers
- 19 libraries
2006 Admitted Fall Freshmen
- Middle 50% SAT (critical reading & math) 1070-1260; Median SAT 1170
- 63 National Merit Finalists
- 10.51% students of color (includes African American, Asian American, Latino, American Indian)
- 3.6% international students
- Average GPA: 3.5

The Cost to Attend
For 2006-07

Tuition and Fees
- Indiana Residents: $7,460
- Non-Residents: $20,472

Room and Board (range based on double room w/ full meal plan)
- Indiana Residents & Non Residents: $5,616-$7,164

Total Academic Year
- Indiana Residents: $13,076-$14,624
- Non-Residents: $26,088-$27,636

Applying to IU & Admission Criteria

Admission to IU is selective, and we review each application for its individual merits and qualities. In particular, we consider factors that emphasize academic performance and preparation, the strength and quality of the high school curriculum, recent grade trends, class rank and results of the SAT or ACT. We encourage students to apply early in the fall of their senior year.

Academic Preparation in High School: Students should be enrolled (including grade 12) in a balanced, challenging, college-prep program. At a minimum we expect that students will complete four years (or 8 semesters) of English, three years (or 6 semesters) of mathematics including algebra I, geometry, and algebra II (four years of math and math in the senior year is strongly advised), two years (or 4 semesters) of social science, one year (or 2 semesters) of laboratory science (biology, chemistry, or physics) plus additional coursework in foreign language, extra mathematics, science, or social sciences to give Indiana residents at least 28 semesters of academic coursework and non-residents at least 32. Note: Indiana residents are expected to complete the Core 40 diploma, at a minimum.

Class Rank: Indiana residents need to be in the top one-half of their graduating class. Non-resident students are generally in the top one-third.

SAT or ACT (with writing components): SAT and/or ACT scores are required. For admission review, the Critical Reading and Mathematics portions of the SAT and the Composite score for the ACT are considered. The writing assessment is required and will be used by our English department for consideration for credit, placement, or exemption in IU English course work.
