P215 Basic Human Physiology – Assignment 1
Paper Topic Selection (5pts)

1) Below, in several sentences please describe the paper topic you have chosen and what aspects of normal physiology you will discuss as part of your paper (This will be the focus of assignment 2).

2) Below, briefly describe a change in normal physiology for the topic you chose above, which may occur as a result of a disease or training or some other stimulus that can cause a deviation from the normal physiology. What intervention or process will you be discussing that would return the system back to normal? (This will be the focus of assignment 3.)
