

Indiana University's Health Care Plans Notice of Privacy Practices

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

Effective Date: April 14, 2003
Updated: October 15, 2016

As the Plan Sponsor of employee health care plans, Indiana University is required by law to maintain the privacy and security of your individually identifiable health information. We protect the privacy of that information in accordance with federal and state privacy laws, as well as the university's policy. We are required to give you notice of our legal duties and privacy practices, and to follow the terms of this notice currently in effect.

This notice applies to all employees covered under an IU- sponsored health plan, but particularly those enrolled in IU self-funded plans.

How The Plan May Use and Disclose Protected Health Information about Members

Protected Health Information (PHI) is health information that relates to an identified person's physical or mental health, provision of health care, or payment for provision of health care, whether past, present or future and regardless of the form or medium, that is received or created by the Plan in the course of providing benefits under these Plans.

The following categories describe different ways in which Indiana University uses and discloses health information. For each of the categories Indiana University has provided an explanation and an example of how the information is used. Not every use or disclosure in a category will be listed. However, all of the ways Indiana University is permitted to use and disclose information will fall within one of the categories.

Treatment

Health information may be reviewed to provide authorization of coverage for certain medical services or shared with providers involved in a member's treatment. For example, the Plan may obtain medical information from or give medical information to a hospital that asks the Plan for authorization of services on the member's behalf, or in conjunction with medical case management, disease management, or therapy management programs.

Payment

Medical information may be used and disclosed to providers so that they may bill and receive payment for a member's treatment and services. For example, a member's provider may give a medical diagnosis and procedure description on a request for payment made to the Plan's claim administrator; and the claim administrator may request clinical notes to determine if the service is covered. Similarly, a physician may submit medical information to a Business Associate for purposes of administering wellness program financial incentives. Medical information may also be shared with other covered entities for business purposes, such as determining the Plan's share of payment when a member is covered under more than one health plan.

Explanations of Payments are also mailed to the address of record for the employee, the primary insured.

Health Care Operations

Health information may be used or disclosed when needed to administer the Plan. For example, Plan administration may include activities such as quality management, administration of wellness

programs and incentives, to evaluate health care provider performance, underwriting, detection and investigation of fraud, data and information system management; and coordination of health care operations between health plan Business Associates. Genetic information will not be used or disclosed for health plan underwriting purposes.

Medical information may also be used to inform members about a health-related service or program, or to notify members about potential benefits. For example, we may work with other agencies or health care providers to offer programs such as complex or chronic condition management.

Individuals Involved in Your Care or Payment of Care

Unless otherwise specified, the plan may communicate health information in connection with the treatment, payment, and health care operations to the employee and/or any enrolled individual who is responsible for either the payment or care of an individual covered under the plan. Also, when a member authorizes another party in writing to be involved in their care or payment of care, the Plan may share health information with that party. For example, when an employee signs an authorization allowing a close friend to make medical decisions on his or her behalf, the Plan may disclose medical information to that friend.

Legal Proceedings, Government Oversight, or Disputes

Health information may be used or disclosed to an entity with health oversight responsibilities authorized by law, including HHS oversight of HIPAA compliance. For example, we may share information for monitoring of government programs or compliance with civil rights laws. Health information may also be disclosed in response to a subpoena, court or administrative order, or other lawful request by someone involved in a dispute or legal proceeding.

Research

Health information may be used or shared for health research. Use of this information for research is subject to either a special approval process, or removal of information that may directly identify you.

Uses and Disclosures Requiring Your Written Authorization

In all situations, other than the categories described above, we will ask for your written authorization before using or disclosing personal information about you. The Plan will not share member information for marketing purposes, including subsidized treatment communications, or the sale of member information without written permission. Members can also opt-out of fundraising communications with each solicitation. If you have given us an authorization, you may revoke it at any time. This revocation does not apply to any uses or disclosures already made in reliance on the authorization.

Mental health information, including psychological or psychiatric treatment records, and information relating to communicable diseases are subject to special protections under Indiana law. Release of such records or information requires written authorization or an appropriate court order.

Member Rights Regarding Protected Health Information

Right to Inspect and Copy

Members have the right to inspect and obtain a copy of the Protected Health Information maintained by the Plan including medical records and billing records.

To inspect and copy PHI, members must submit in writing a request to the plan administrator. Requests to inspect and copy PHI may be denied under certain circumstances. If a member's request to inspect and copy has been denied written documentation stating the reason for the denial will be sent to the member.

Right to Amend

Members have the right to request an amendment to PHI if they feel the medical information is incorrect for as long as the information is maintained.

To request an amendment, members must submit requests, along with a reason that supports the request, in writing to the plan administrator.

The Plan may deny a member's request for an amendment if it is not in writing or does not include a reason to support the request. Additionally, the Plan may deny a member's request to amend information that:

- Is not part of the information in which the member would be permitted to inspect or copy;
- Is not part of the information maintained by the Plan
- Is accurate and complete

Right to an Accounting of Disclosures

Members have the right to an accounting of PHI disclosures during the six years prior to the date of a request.

To request an accounting of disclosures, members must submit requests in writing to the plan administrator. Requests may not include permitted PHI disclosures made to carry out treatment, payment or health care operations included in the six categories listed above. The member's written request must include a date or range of dates and may not include any dates before the April 14, 2003, compliance date.

Right to Request Restrictions

Members have the right to request restrictions on certain uses and disclosures of Protected Health Information to carry out treatment, payment or health care operations. Members also have the right to request a limit on the information the Plan discloses to someone who is involved in the payment of your care; for example: a family member covered under the plan.

The Plan is not required to agree to your request. To request restrictions, members must submit requests in writing to the Plan. Requests must include the following: (1) information the member wants to limit; (2) whether the member wants to limit our use, disclosure or both; and (3) to whom the member wants the limit to apply, for example, disclosures to a spouse.

Right to Request Confidential Communications

Members have the right to request that the Plan communicate with them about health information in a certain way or at a certain location. For example, asking that the Plan contact a member only at work.

To request confidential communications, members must submit requests in writing to the health plan administrator and must

include where and how members wish to be contacted. The Plan will accommodate all reasonable requests.

Right to Receive Breach Notification

If the Plan components or any of its Business Associates or the Business Associate's subcontractors experiences a breach of health information (as defined by HIPAA laws) that compromises the security or privacy of health information, members will be notified of the breach and any steps members should take to protect yourself from potential harm resulting from the breach.

Right to a Copy of This Notice

Members have the right to a copy of this Notice by e-mail. Members also have the right to request a paper copy of this notice. To obtain a copy, please contact the Privacy Administrator or visit <http://hr.iu.edu/benefits/privacynotice.pdf>

Changes Made to This Notice

The Plan reserves the right to change this Notice. The Plan reserves the right to make the revised or changed notice effective for Protected Health Information the Plan already has about members as well as any information received in the future. The new notice will be available on our web site, upon request, or by mail.

Right to File a Complaint

If a member believes that their privacy rights have been violated, they may file a complaint to the Privacy Administrator with Indiana University's Health Care Plans, see contact information below.

Members may file a complaint with the U.S. Department of Health and Human Services Office for Civil Rights by sending a letter to: 200 Independence Avenue S.W., Washington, D.C., 20201; calling 1-877-696-6775, or visiting <http://www.hhs.gov/ocr/privacy/hipaa/complaints/>.

Indiana University will not retaliate against any member for filing a complaint.

Contact Information

Members may contact the health plan with any requests, questions or complaints. We will respond to all inquiries within 30 days after receiving a written request. The Plan will accommodate all reasonable requests.

Personal Representatives

Members may exercise their rights through a personal representative. This person will be required to produce evidence of his/her authority to act on a member's behalf before they will be given access to PHI or allowed to take any action for a member. Proof of this authority may be one of the following forms:

- A power of attorney notarized by a notary public;
- A court order of appointment of the person as the conservator or guardian of the individual; or
- An individual who is the parent of a minor child.
