Undergraduate Summer Fee Discount

On October 28, 2011, the Trustees of Indiana University approved a plan to reduce undergraduate tuition for the 2012 and 2013 summer sessions. Under the plan, Indiana resident undergraduates enrolled at any of IU’s campuses will receive a 25% discount on instructional, program, and mandatory fees. Nonresident undergraduate students will receive an equivalent dollar reduction.

Frequently Asked Questions

Which fees are affected?

The summer fee discount applies to undergraduate instructional, program and mandatory fees only. Course-related fees are not affected. The discounted rates and fees can be found here link to fee discount list

Are Overseas Study programs included in the summer fee discount?

Overseas Study fees are determined in conjunction with institutions and organizations in other countries. Since Indiana University does not set the academic fees at those institutions and organizations, the summer fee discount would not apply to these programs.

What is President McRobbie’s guarantee?

President McRobbie will guarantee tuition and mandatory fee income for Summer 2012 based on actual Summer 2011 undergraduate tuition and fee income. Credit hours enrollments for Summer 2012 need to be consistent with Summer 2011 enrollment levels. Otherwise, the credit hour ratio will be decreased to the appropriate ratio (i.e the guarantee will be -20% if 80 credit hours in summer 2012 compared to 100 credit hours in 2011). Amounts will be based at the RC level for IUPUI and Bloomington, and at the campus level for all other campuses.

What are the parameters for credit hour enrollment?

The comparison for credit hour enrollment will be at the time of census. For example, if the Summer 2012 credit hours are only 80% of the Summer 2011 credit hours, the guarantee will be 80% instead of 100%.

How will campuses know the amounts of the guarantee?

Details regarding the Summer 2011 credit hours and fee income will be provided by the campus or the University Budget Office.

When will the guaranteed funds be distributed?

It is anticipated that a distribution based on an interim calculation will be made in June 2012. Final amounts will be calculated and settled after the final term is complete in Summer 2012.

The summer undergraduate tuition and fees are reduced for both Summer 2012 and Summer 2013. Will there be a guarantee for Summer 2013?

At this time, the President’s guarantee is for one year; however it will be reevaluated for 2013.
