INTERVIEW SCHEDULE – PART A

DATE: __/__/____

START TIME: __ AM/PM

SECTION A - INTRODUCTION

(READ) This interview is part of a project that is researching how you and the other former patients at Central State Hospital feel about the closing of Central State Hospital and what has happened since you left. We do not work for the hospital or the Government. We are I.U. researchers who are interested in reporting what you feel and what you have experienced because of the hospital closing.

Before we begin, I need to explain to you that everything you tell me will be kept in strictest confidence. That is, we will not tell anyone associated with the government or the mental health center (this hospital) anything you say. However, if you get sick during the interview, we may need to talk about the situation with the mental health center (hospital) staff so that they can help you. But, we will never tell them your answers to any of the questions you answer in the interview.

You do not have to answer any question that you don't want to. The interview is about 1 to 1 1/2 hours long, depending on how much you have to say. The interview can broken into parts if you prefer.

Before we get started, I need for you to look over the Informed Consent Form. When you're done, let me know. WHEN DONE, ASK: Is there anything you want to ask about the study before we start? ANSWER ANY QUESTIONS, HAVE RESPONDENT SIGN CONSENT FORM AND GIVE THE TOP COPY OF THE FORM.
