Kyrgyzstan is a country covered with mountains, jewel lakes and nomadic people. It is located in Central Asia and surrounded by four countries such as Kazakhstan, Uzbekistan, Tajikistan and China. Kyrgyzstan has a great natural setting.

Silence of the mountains, pure nature, boundless blue sky, fresh air, cool breath of glaciers, challenging snow white peaks, untouched slopes and all of this is Kyrgyzstan! A wonderful country where 95% of the whole territory is mountains. 88 ridges of the great Tian-Shan mountain system are stretched from the West to the East.

Learning Kyrgyz Language can give you an edge in applying for graduate fellowship at the State Department, the CIA and the FBI, not to mention international business and law opportunities.

Kyrgyz language is offered each academic year and taught by a native Kyrgyz FLTA.

Learn KYRGYZ with Central Eurasian Studies!
