This year’s theme, “¡Calma Pueblo!: Order and Chaos in Latin America,” encourages participants to consider changes within Latin America which have led to order and/or chaos. Although order and chaos are binary terms, they are meant to encompass the wide scale of experiences within Latin America.

Indiana University’s Center for Latin American and Caribbean Studies (CLACS) is proud to host the 3rd annual CLACS Graduate Student Conference on March 07-08, 2014 on the campus of Indiana University Bloomington.

Thank you to all of our participants, discussants, and supporters.

For more information about our center and upcoming events, please contact us:
1125 E. Atwater
