Festschrift for Doug Mewhort

Friday, June 24 • 10:00 – 4:30
University of Manitoba • Room EITC E3-270

Doug is a graduate of the Royal Conservatory (Toronto, 1960), the University of Toronto (1964), and the University of Waterloo (1968). He was made Assistant Professor at Queen’s University in 1968 and Full Professor in 1982.

Doug has published 93 articles and 2 books on topics including perception, visual processing, memory, learning, performance, music cognition, statistics, and high performance computing. He has graduated 20 masters and 16 doctoral students (and counting). He was central to the establishment of the High Performance Computing Virtual Laboratory (HPCVL) and the broader development of research-dedicated HPC infrastructure in Canada.
