

i - MARS

Technology and Space Exploration

Monday, February 23
4-7 pm
Indiana University
Informatics Building
901 East 10th Street
Bloomington Campus

- * Experience Mars in 3-D with advanced visualization systems such as the John-e-box
- * Meet IU researchers and learn about their space-related projects
- * Learn about science and technology's role in the space program
- * Interact directly with Martian data
- * View brilliant new images of Mars

Everyone is welcome and refreshments will be served.
