FACULTY POSITION, INDIANA UNIVERSITY: The Department of Psychological and Brain Sciences at Indiana University – Bloomington seeks to fill a faculty position at the level of Assistant Professor (tenure-track) to begin August 2018. The position is part of a major Emerging Area of Research initiative by Indiana University to promote the study of learning across disciplinary boundaries bridging the gap between the study of human and machine learning. Individuals with integrated research programs on human learning that also include computational neuroscience, human neuroscience, cognitive or perceptual development and cognitive modeling, machine learning, or computer vision are especially encouraged to apply. The Indiana University initiative on learning will continue over the next few years by promoting additional faculty lines with synergistic research programs to address the important topic of learning in humans and machines. The College of Arts and Sciences is committed to building and supporting a diverse, inclusive, and equitable community of students and scholars.

Applicants should have an advanced degree (a PhD in Psychology, Cognitive Science, Neuroscience, Computer Science or related field is preferred). Interested candidates should review the application requirements and submit their application, CV, research statement, teaching statement and three letters of recommendation at: https://indiana.peopleadmin.com/postings/4367. Questions regarding the position or application process can be directed to: Dr. William Hetrick, Ph.D., Professor & Chair, Department of Psychological and Brain Sciences, whetrick@indiana.edu with “Emerging Areas Search” in the subject line or 1101 E. 10th Street Bloomington, IN 47405. Review of all applications will begin on December 1, 2017 and will continue until the position is filled. Information about the department and the university is available at http://psych.indiana.edu

Indiana University is an equal employment and affirmative action employer and a provider of ADA services. All qualified applicants will receive consideration for employment without regard to age, ethnicity, color, race, religion, sex, sexual orientation or identity, national origin, national origin, disability status or protected veteran status.
