In an age of mass electronic information, cyber security must be taken into careful consideration. Join us to discuss security concerns as they apply internationally, locally, and individually. Law professor Fred Cate, Director of the Center for Applied Cybersecurity Research, will discuss global trends in cyber security and security law. Kurt Seiffert, Manager for Research Storage, will discuss how his department at IUB provides organizational security and suggest resources and techniques for ensuring personal cyber safety.

**Fred Cate**  
Director of the Center for Applied Cybersecurity Research

**Kurt Seiffert**  
Manager for Research Storage

**Thursday, March 31**  
**7 p.m.**

**Monroe County Public Library**  
Program Room 2B  
Second Floor

The Global Issues Community Discussion Series is presented through a partnership between the IU Center for the Study of Global Change and Monroe County Public Library
