Sample of Student Summary of Panel Discussion Workshop

HPER-L180

Speaker/Workshop II

I attended the Study Abroad session on the 2nd of April 2012 from 4-5pm in room HPER 125. The featured guests were Stephanie Jurinek, HPER Student, Ms. Carla Brown, HPER Student, Dr. Noy Kay, HPER Faculty, Travel Study Leader, Dr. Alping Ma, RPTS Visiting Scholar. We talked about ways to pay for your study abroad like scholarships. We also talk about making sure where you are staying is a reputable, because one of the ladies had once stayed in a place that ended up have bed bugs. Also make sure you have your passport well ahead of time, because if you wait till the last minute you might not get it in time. Never be closed off to an idea because you could miss out on a great opportunity you never thought you could have. Put yourself out there and give yourself chances to meet amazing people and do amazing things. I was amazed at home many times Dr. Noy Kay went and helped students study abroad and how many students she opens a new pathway in life for. I would like to be able inspire students like she does but my cause would be slightly different. I want to inspire children to go outside and explore nature and learn about it by actually experiencing it not by just reading about it in a textbook. I want children to have a connection with nature like I have, but this can only be created by getting them outside and learning about how fragile it can be but also how strong it can be.
