  - **Diversity** - We are hoping to continue to move forward in planning and researching for our main initiatives, and hope to bring legislation to the floor by the end of the year. Diversity has formally established its three subcommittees, addressing issues of sexual assault and sexual violence prevention, providing resources and information to international students, and lobbying for a prayer room to be established in Wells Library for the use of Muslim students. All three subcommittees are working hard on these
initiatives, and we hope to present the Assembly with results in the next few months.

- **Benefits**- We are working on two initiatives: SAA family/medical leave policy and AI pay equity. There has been progress on the Graduate Student Resource survey by providing input to UGS and Vice Provost office; beginning a new initiative to formalize a policy on family/medical leave for SAAs.

- **Health & Wellness**- H&W committee is finalizing two resolutions and is planning activities for graduate students at the RSRC. They are also working on food insecurities on campus as well.
