HISP-S 326 Introduction to Hispanic Linguistics (3 credits)
Prerequisite: S280 or S310 or equivalent.

This course provides an introduction to Hispanic Linguistics and establishes the basis for future application of linguistic principles. The content included is an overview of basic linguistic properties with a focus on Spanish. The course begins with an exploration of the sound system of Spanish and its theoretical representation. Building on this, the discussion continues with topics in Spanish morphology such as word formation and verbal inflection. Finally, issues in syntax and semantics are analyzed both in isolation and in terms of their relationship to each other. A coursepack of article-length readings will be included to introduce the following areas: historical linguistics, second language acquisition, semantics, and sociolinguistics. The goal of this course is to provide students with a level of knowledge that enables them to succeed in future Hispanic Linguistics courses. This course carries COLL (CASE) N & M credit.

HISP-S 326  #24421  1:00P-2:15P  TR  BH 331  Professor Kimberly Geeslin
Note: This class is for Hutton Honors students and meets with a HISP-S 326 non-honors section, #24422.

HISP-S 326  #24422  1:00P-2:15P  TR  BH 331  Professor Kimberly Geeslin
Note: This class meets with the Honors section for S326, #24421.
