

Meals and Special Diets

- You are responsible for buying your meals during the caravan trips so bring enough cash for this purpose.
- Other than our standard menu, accommodations can be made for vegetarians and persons with allergies or medical conditions. Other than this, no other menu will be available.
- Vegetarian menu avoids any foods with meat or meat by-products. However, it does include dairy products. If you desire a stricter diet you will have to make alternative plans for your meals at your own expense.
- You **MUST** indicate on the Information Form any special dietary needs or vegetarian preference. You will **NOT** be allowed to switch back and forth from menu preference throughout the course. Whatever preference you indicate initially will be the menu you partake of for the duration of the course.
