**IUGFS General Endowment Accounts**

**Judson Mead Field Station Fund**

This account is to be used to support students, faculty research at the field station, travel expenses for students, visiting faculty and scientists, and the purchase of supplies and equipment items when needed at the discretion of the Chair and Director.

**Excellence in Field Geoscience**

The income from these gifts is to be used for the general support of the Judson Mead Geologic Field Station, in order to support teaching of geoscience in the field to students and other individuals of all ages, and research into the best practices of teaching geosciences in the field. Distribution of funds will be jointly determined by the Department Chair and the Director of the Field Station. Expenditures may include but are not limited to course development and marketing, instrumentation and equipment, enhancement of infrastructure, faculty recruitment and retention, workshops and seminars, travel for faculty, staff and students, and other needs that will ensure the highest level of excellence in teaching and pedagogic research based at the Judson Mead Geologic Field Station.

**IUGFS Scholarship Endowment Accounts**

**Class of 2013 Katharine E. Compton Memorial Field Station Scholarship**

The IUGFS Class of 2013 and Compton family established an endowment in memory of Katharine E. Compton, an enthusiastic young woman with a profound interest in field geology. This scholarship will be awarded to students on the basis of scholarship and citizenship. The recipients’ application should provide evidence of their campus and community involvement, leadership qualities and academic preparedness. The funds are to be used to provide one or more scholarships, to be awarded to a student attending G429.

Recipients of this scholarship are encouraged to provide a letter to the Compton family with an account of their experience at the field station.

**Charles Deiss Memorial Scholarship**

This account is to provide for two summer scholarships to the Indiana University Geologic Field Station in Montana. The amount and recipient(s) will be determined by the Scholarship Committee of the Department.

**George M. Nevers Memorial Field Station Scholarship**

Income from this account is to be used to support scholarships for undergraduate or graduate students who have been accepted and enrolled for summer field courses at the IU Judson Mead Geologic Field Station. Recipients are not required to be IU students so long as they meet the
enrollment goals and admission standards for the field station. The scholarship is not renewable. The number, amount(s), and recipient(s) of the Scholarship will be determined by the Scholarship Committee of the field station in accordance with guidelines and procedures established by the College, Indiana University, and the Foundation.

Scott and Allyson Tinker Scholarship

It is the intent of this fund that income from this gift be used to support undergraduate scholarships for field study at the Judson Mead Geologic Field Station. It is the Donors' preference that at least one scholarship in the amount of $1,000 shall be awarded annually. The recipients shall be registered at Indiana University and enrolled in field courses offered through the Indiana University Department of Geological Sciences. Preference will be given to students from Trinity University who meet the academic guidelines and admission criteria for summer field study at the Judson Mead Geologic Field Station, as defined by the scholarship committee. The number, amount, and recipient(s) of the Scholarship will be determined by the Scholarship Committee of the Department, in accordance with guidelines and procedures established by the College, Indiana University, and the Foundation.

IUGFS Student Research Support Endowment Account

Charles J. Vitaliano Grant-in-Aid

It is the intent that income from this gift be used to support a grant-in-aid for student research on the geology and geophysics of western Montana and adjacent areas. Competition for the grant-in-aid will be announced annually through a direct mailing to U.S. and Canadian institutions and on the World Wide Web. Preference will be given to students who will reside, in part, at the Station, where they will be provided free room and board. All publications resulting from the work must acknowledge the Charles J. Vitaliano endowment as the source of the grant-in-aid, and grant recipients must use the Station as their address on the publications. The selection of the recipient of the Charles J. Vitaliano Grant-in-Aid will be made by a committee consisting of the Director and Associate Director of the Station, and one other person appointed by the Director.

IUGFS Construction and Maintenance Endowment Accounts

Judson Mead Geological Field Station Building Fund

This account is to be used for construction of facilities at the Judson Mead Geologic Field Station. The facilities shall be constructed to meet the needs of the Department of Geological Sciences and the College of Arts and Sciences at Indiana University. The account manager will be the Senior Vice President and Chief Financial Officer of the Foundation and the account
supervisor will be the Vice President for Capital Projects and Facilities of Indiana University. Any excess funds must be used for the benefit of the construction project. Allowable expenditures may include, but are not limited to, equipment or furnishings to complete the building, costs associated with preliminary planning, and travel by College administrators and faculty to conduct site visits, and consultations with architects and contractors. The College also acknowledges that the cost of the construction project supported by the Donors may exceed the amount of gift funds available for this purpose. The College, in consultation with the Indiana University Vice President for Capital Projects and Facilities, has the responsibility to identify other available funds that can be used to complete the project.

**Geology Field Station Maintenance**

The net income and in case of emergencies as defined by the Department, 10% of the principal be used for maintenance, upkeep, and improvements on the Field Station physical plant.
