**Faculty need
to help in
3 ways**

1

Document Curriculum and Assessment Quality for NCATE

We are creating an electronic portfolio of the LTTL Program. For every course taught, we will need:

- 1) **Syllabi** that include the specific Principles of Teacher Education taught in the course or block.
- 2) **Assignment explanations and rubrics.** Save **samples of student work** that provide evidence of student learning and show how you provide feedback.

2

Participate in Curriculum and Assessment Development

- 1) Attend Block Team meetings
- 2) Attend monthly C/A Development meetings. Serve on committees as needed.
- 3) Plan ahead for Assessment Days –
December 13 and May 2

3

Develop Capacity within the Partnership Schools

- 1) Work with public school colleagues to create meaningful learning experiences in the field
- 2) Act as the liaison to a school. Become familiar with their needs, communicate about our program, and help bridge the two worlds.
- 3) Attend and encourage the schools to attend the Partnership Meeting in June 20, 2002.
