Project Support & Development

Information Technology

Data Services

**Grantsmanship/
Special Projects**

Technology budgets and budget justification in support of grantsmanship; creation of primary source, content driven data-retrieval tools

FAADS Project

NSF Major Research Instrumentation Grant

**Publications;
Administrative computing**

Teaching and Research

Web development

Departmental web site course web pages/sites; special project web sites (prelaw, service learning); on-line surveys

Budget, Planning, purchasing, technology policy and security, workstation support

Hardware repair/maintenance; system repair and upgrade (87 workstations, 4 laptops; 4 network duplex and 20 stand alone printers)

**Experimental/
Spatial Lab**

30 High-end workstations; built-in multimedia and projectors

Network/Server Admin.

Federal Assistance Data Server - NSF supported

Utility Server (Locke): Centralized Norton Antivirus; Ghost imaging; print quota; print server

N A S

File server, applications server, web sever, network access storage (NAS)

- File
- App
- Web

ADS: bl-pols

Data Lab Resources

7 high-end workstations; high-speed scanning; CD-duplication; misc. hardware/network tools

Service

Consulting, Software support and Training; equipment/media resources.

Graduate Computer Cluster

12 workstations and networked printing dedicated to political science graduate students; used also to support teaching and experiments

Data Lab

ICPSR Off. Rep

Data archive

Data management; data orders; metadata/codebook management; web interface (SCRIPT)

Data Support

Data extraction; Data and codebook manipulation and interpretation

Statistical application support

Supports a wide variety of statistical applications and complex statistical procedures; training and outreach
