

P457/P654 Readings in the Science of Morality

John K. Kruschke
Indiana University, Bloomington

This is a tentative list of readings for P457/P657, as of August 23, 2011. There are a total of 30 class meetings (every Tuesday and Thursday for 15 weeks). The reading(s) for each day are in the enumerated list. Notice that some days have two readings. If a day with two readings has them listed as "A:xxx" and "B:yyy", then they are presented by different students. If a day with two readings has them listed as xxx *with* yyy, then they are presented by the same student. The order of readings will probably remain as listed here, but the exact day of each reading might flex. In particular, some days might cover two readings instead of only one, or one reading instead of two. *Please check for subsequent updates and changes.*
