MorphologyFest:
Symposium on Morphological Complexity
June 16-20, 2014
Indiana University, Bloomington

Call for poster presentations

Abstracts for poster presentations are invited in the following areas: Complexity and computation; Complexity and lexical processing; Complexity, diversity, and evolution; Complexity, non-concatenative morphology, and the theory of grammar.

Invited speakers

Stephen R. Anderson, Yale University
Anne-Marie di Sciullo, UQAM
Robert Fiorentino, University of Kansas
Martin Haspelmath, Max Planck Institute for Evolutionary Anthropology

Invited lectures will consist of four lectures daily (Monday – Thursday), each one-hour long by each of the invited speakers. Each speaker will address one of four thematic areas of morphological complexity: computation, diversity and evolution, lexical processing, and non-concatenative morphology and the theory of grammar.

Abstracts must be no more than one page in length (not including references), and must include title of presentation.

Abstracts should be submitted through EasyAbstracts (EasyAbs), (http://linguistlist.org/easyabs/mrphfest14)

Submissions are limited to one individual and one joint abstract per person.

Organizing committee:

Robert Botne
Clancy Clements
Phil Lesourd
