

## Copenhagen DIS Course Equivalencies

A minimum of 15 credits are required for this program. This list is subject to change.  
Please see <http://www.dis.dk/Academic1/index.php> for course descriptions, prerequisites, and syllabi.  
All courses are taught in English except for the Danish language courses.

**Students must choose to enroll in a DIS academic program.** Students are required to take the core course(s) for whichever DIS academic program they select. Most DIS academic programs require students to take 1-2 core courses. Additional courses can be selected from any academic program's list of electives as long as the student meets the prerequisites for each course.

### DIS ACADEMIC PROGRAMS:

#### *Foreign Course Title*
