April Highlights

Masterpiece Classic: Great Expectations
Part 1: April 1 at 9pm; Part 2: April 8 at 9pm

Widely considered one of Charles Dickens’ greatest novels, *Great Expectations* tells the story of Pip, the battered orphan boy who rises from blacksmith’s apprentice to gentleman under the patronage of a mysterious benefactor, who assures him of “great expectations.” Additionally, on April 15 at 9pm *Masterpiece Classic* will air an adaptation and completion of Dickens’ last novel, left unfinished at his death *The Mystery of Edwin Drood.*

Finding Your Roots with Henry Louis Gates, Jr.
Sundays, April 1-29 at 8pm

Join Henry Louis Gates, Jr., as he journeys deep into the ancestry of a group of remarkable individuals and provides new understanding of personal identity and American history. Featuring Kevin Bacon, Tyra Banks, Cory Booker, Angela Buchdal, Geoffrey Canada, Margaret Cho, Harry Connick Jr., Robert Downey Jr., Dr. Sanjay Gupta, Samuel L. Jackson, John Legend, John Lewis, Branford Marsalis, Yasir Qadhi, Condoleezza Rice, Michelle Rodriguez, Kyra Sedgwick, Wanda Sykes, Ruth Simmons, Martha Stewart, Barbara Walters and Rick Warren.

Grand Coulee Dam: American Experience
Tuesday, April 3 at 8pm

Grand Coulee was more than a dam — it was a proclamation. In the wake of the Great Depression, America turned from private enterprise to public works — not simply to provide jobs, but to restore faith. The ultimate expression of Franklin Roosevelt’s New Deal, Grand Coulee played a central role in transforming the Northwest. After WWII, a vast irrigation project made possible by the dam helped turn the barren deserts of central Washington into rich farmland. But the dam prevented access to one of the greatest salmon rivers in the world. Deprived of the salmon — their most important resource — the native people who lived along the Columbia witnessed a profound cultural decline.

NOVA: Hunting the Elements
Wednesday, April 4 at 9pm

What are things made of? It’s a simple question with an astonishing answer. Fewer than 100 naturally occurring elements form the ingredients of everything in our world — from solid rocks to ethereal gases, from scorching acids to the living cells in our body. Take a spin with David Pogue through the world of weird, extreme chemistry on a quest to unlock the secrets of the elements.
**Being Elmo: A Puppeteer’s Journey**
*Thursday, April 5 at 9pm; Monday, April 9 at 9pm*

As a teenager growing up in Baltimore in the 1970s, Kevin Clash had very different aspirations from his classmates — he wanted to be a puppeteer. Combining archival footage with material from the present day, this film explores Clash’s story in vivid detail and chronicles the meteoric rise of Jim Henson in the process. This insightful documentary offers up a rare, behind-the-scenes look at Sesame Street and the Jim Henson legacy.

**Live From Lincoln Center:**
*Renée Fleming @ The Penthouse*
*Friday, April 6 at 9pm*

Join Renée Fleming for an intimate performance featuring the rarely performed *Knoxville Summer of 1915* by Samuel Barber, the program also marks the first television performance of songs from Fleming’s acclaimed new pop and indie-rock album, *Dark Hope*. A favorite of this Emmy Award-winning series as both performer and host, Fleming will also perform Broadway favorites and a special duet with popular vocalist Josh Groban.

**Lidia Celebrates America: Weddings:**
*Something Borrowed, Something New*
*Tuesday, April 17 at 8pm*

Join chef Lidia Bastianich to celebrate culture through food, with a focus on wedding traditions. Travel to New Orleans for an African-American wedding. Madhur Jaffrey will prepare classic Indian wedding dishes. The third wedding features a Korean-American wedding with celebrity fashion designer Isaac Mizrahi. The final wedding examines the marriage of two cultures — Irish-American and Italian-American.

**Goose Pond: The Story of a Wetland & Its Neighbors**
*Sunday, April 22 at 2pm*

Visit a wetland marsh in southwestern Indiana, the largest and one of the most successful wetland restorations of its kind in U.S. history. Early in Indiana’s history, the federal government began encouraging settlers to dredge, drain and tile Gosse Pond in an effort to make it suitable for farming. Because of the mucky soil and seasonal flooding, those efforts were only marginally successful. For years, attempts were made to restore the marsh to its original state as a refuge for the beautiful migratory birds that travel from the southern tip of South America to the Arctic.

Bag It
Sunday, April 15 at 3pm
Is your life too plastic? In this touching and often flat-out-funny film, we follow “everyman” Jeb Berrier as he embarks on a global tour to unravel the complexities of our plastic world.

Powering the Planet - Earth: The Operators’ Manual
Sunday, April 22 at 10:30pm
Eight stories about nations and communities transitioning from fossil fuels to renewable or low-carbon sources of energy. Hosted by noted Earth scientist, Dr. Richard Alley — who goes bungy jumping in New Zealand to illustrate abrupt climate change and “tipping points.”

Burning the Future: Coal in America
Sunday, April 22 at 11:30pm
Examine the explosive conflict between the coal industry and residents of West Virginia. Faced with toxic ground water and the obliteration of 1.4 million acres of mountains the residents launch a valiant fight to arouse the nation’s help in protecting their mountains, saving their families, and preserving their way of life.

Small Farm Rising
Monday, April 23 at 10pm
A new generation of farmers are redefining agriculture in America. Small, modern, sustainable and rooted in the community, these local farms are in the forefront of a movement growing across the nation. Explore the sustainable practices, creative business models and deep connections to the communities of three small farms. Experience one full growing season through the eyes of first-generation farmers as they enrich and enliven their rural environments.

Greenest Building
Monday, April 30 at 10pm
Over the next 20 years, one third of our nation’s existing building stock (over 82 billion square feet) will be demolished in order to replace seemingly inefficient buildings with energy efficient “green” buildings. This documentary argues for conservation, rehabilitation and adaptive reuse of our existing building stock as the single most effective strategy for reducing, reusing and recycling one of our most important consumer products — our buildings.

**TITANIC CENTENARY**

**1912-2012**

**Saving The Titanic**
*April 1 at 10pm; April 10 at 9pm*

Follow a dramatic interpretation of the Titanic’s final hours, told from the point of view of the engineers below deck as they struggle to maintain power and keep the ship afloat to save as many lives as possible.

**The Titanic With Len Goodman**
*April 10 at 8pm*

Join Len Goodman as he examines the 100-year legacy of the Titanic, exploring the human stories that unfolded in the years after the ship sank. He meets descendants of passengers and crew and hears how, for the families of many on board, the sinking was just the start of the story. He visits Belfast, the city where Titanic was built, and journeys to other towns left scarred by the tragedy.

**NOVA: Why Ships Sink**
*Wednesday, April 18 at 9pm*

Twenty million passengers embark on cruises each year, vacationing in deluxe “floating cities” that offer everything from swimming pools to shopping malls to ice skating rinks. And the ships just keep getting bigger: The average cruise ship has doubled in size in just the last 10 years. Some engineers fear that these towering behemoths are dangerously unstable. Now, NOVA brings together marine engineering and safety experts to reconstruct the events that led up to famous cruise disasters, including the ill-fated Concordia, the Sea Diamond and the Oceanos.

April Taxes & Topics
It’s April and there are two things one can’t ignore: taxes are due and the noise from the political campaign is becoming relentless.

WTIU can offer two kinds of relief. Good, solid, news and information on the political candidates and a source of tax relief for those who planned wisely in 2011.

If filling out those pesky 1040 forms for 2011 gives you pause, consider planning a gift now to WTIU during 2012. You will be better prepared for a charitable deduction that may make your tax debt more palatable next year—and make you feel good for supporting your local public television station.

Keep WTIU in mind for a state tax credit too. Because WTIU is part of Indiana University, you can claim up to $200 of a $400 gift as a tax credit—if you file jointly, and $100 in credit on a $200 gift—if filing singly. That credit comes right off the top of what you may owe in state taxes. It is money back in your pocket. Look for Form CC40.

Of course, it is always wise to consult your financial advisor on such matters. To discuss ways of making a tax-advantaged gift to WTIU, feel free to contact Nancy Krueger at (812) 855-2955 or nkrueger@indiana.edu. Additional information on other ways to make a gift can also be found at indianapublicmedia.org.support/tv.

---

**This Month On**

**Center Stage from Wolf Trap**
Thursdays at 10 p.m.

*Center Stage from Wolf Trap* returns to WFIU with a new thirteen-part series.

Showcasing performances from some of today’s finest chamber musicians recorded in the acoustically superb Barns at Wolf Trap, each program includes unscripted conversation between veteran broadcaster and musician Rich Kleinfeldt and composer-conductor Bill McGlaughlin.

The April 12th program features a performance by IU Distinguished Professor of Music Menahem Pressler. The April 19th program includes a performance of Circus, a work for brass quintet by IU alumnus Clint Needham.

**Jazz at Lincoln Center**
Friday, April 6, 8 p.m.

This program spotlights the 2012 NEA Jazz Masters: Jack DeJohnette, Von Freeman, Charlie Haden, Sheila Jordan and Jimmy Owens. These veterans share the stage with keepers of the flame in stories and once-in-a-lifetime performances. Wendell Pierce hosts.

**Metropolitan Opera: Wagner’s Die Walküre**
Saturday, April 28, 11 a.m.

The second installment of Robert Lepage’s new production of the Ring cycle, conducted by Fabio Luisi, features a stellar cast led by Bryn Terfel as Wotan and Deborah Voigt as Brünnhilde.

Jonas Kaufmann and Eva-Maria Westbrook appear as the Wälsungen twins, Siegmund and Sieglinde, and Stephanie Blythe is Fricka.

“The Ring is not just a story or a series of operas, it’s a cosmos,” says Lepage, who brings cutting-edge technology and his visionary imagination to the world’s greatest theatrical journey.

Travel
through time, space and systems to reveal a nation of interdependent and intricately interwoven networks that feed and power the nation, produce millions of goods, transport people great distances and still come together to make America work. These networks all rely on vast, complex and precisely calibrated systems, yet most Americans have never had the chance to observe or understand them. Until now.

Journey high above the American landscape to reveal the country as never seen before.

Food Machine
Wednesday, April 11 at 10pm

Over the past century, an American industrial revolution has given rise to the biggest, most productive food machine the world has ever known. Learn how this machine feeds nearly 300 million Americans every day. Discover engineering marvels created by putting nature to work, and consider the toll our insatiable appetites take on our health and environment.

Nation on the Move
Wednesday, April 18 at 10pm

America is a nation of vast distances and dense urban clusters, woven together by 200,000 miles of railroads, 5,000 airports and four million miles of roads. These massive, complex transportation systems combine to make Americans the most mobile people on earth. Journey across the continent by air, road and rail, venturing behind the scenes with the workers who get us where we need to go.

Electric Nation
Wednesday, April 25 at 10pm

Our modern electric power grid has been called the biggest and most complex machine in the world — delivering electricity over 200,000 miles of high-tension transmission lines. Travel around the country to understand its intricacies, its vulnerabilities and the remarkable ingenuity required to keep the electricity on, every day of the year.

Made in the USA
Wednesday, May 2 at 10pm

American manufacturing has undergone a massive revolution over the past 20 years, becoming — gloomy perceptions to the contrary — the number-one manufacturing nation on Earth. Cross the country to look at traditional and not-so-traditional types of manufacturing.
