IU Incubator Building
Innovation & Design Credit 1.1: Exemplary Performance for WEc3

Design Application Review: The LEED Submittal Template has been provided stating that the project is attempting to achieve an exemplary performance for WEc3. However, WEc3 is denied, pending clarification.

Technical Advice: Please address the technical advice for WEc3.

Response:

Credit WEc3 has been revised to reflect consistency between the narrative and the calculations. The updated template reduced the potable water use by 42% in lieu of 43.1% as shown in the initial design review template. The 42% currently shown is still above the 40% required for exemplary performance.

We hope the attached narrative for WEc3 address the USGBC reviewer's request for additional information.

Sincerely,
