We have previously enjoyed a visit to the historic Wylie House and now have the opportunity to see the new education center housed in a barn built in Monroe County in the 1860’s! The barn was dismantled and rebuilt on the Wylie House grounds, preserving the original hand-hewn posts and beams and the poplar siding. A relatively small structure, it doesn’t overwhelm the House, but provides ample room for gardening programs, reception/exhibit space, a multipurpose meeting room, staff offices, and library, among other uses. We’ll have a tour of the barn and a docent-led talk on the history of the barn and the property. There will be refreshments following the meeting.
