Thursday, February 9, 2017 at 11:45 a.m.
Dr. Jon Macy, IU Professor of Applied Health Science

Reducing Smoking and Other Public Health Achievements and Public Health Challenges Ahead

Dr. Jon Macy is an Associate Professor of Applied Health Science in the School of Public Health at Indiana University. He teaches in the public health administration concentration for the Master of Public Health program. His research interests include tobacco control policy, smoking cessation, adolescent smoking prevention, and implicit attitudes toward smoking. Born in Indianapolis, he received a PhD in Health Behavior from Indiana University, a MPH in International Health from Emory University, and a BA in Economics from DePauw University.

Dr. Macy will talk about some of the greatest public health achievements in recent history as well as the most important public health challenges we will be facing in the future.

Dr. Macy has two boys, ages eleven and fourteen, who like their dad enjoy playing and watching sports. He dedicates a lot of time coaching his children’s baseball and basketball teams and attending their games. His wife, Holly, is a writer and a volunteer in the community.
