Guest Speaker Gerardo M. González
Cuba Personal: A Refugee’s People-to-People Stories from Visits to the Island

In February 1962, three years into Fidel Castro’s rule of their Cuban homeland, the González family - an auto mechanic, his wife, and two young children - landed in Miami as refugees with a few personal possessions and two bottles of Cuban rum. Gerardo’s journey came full circle when he returned to Cuba for the first time fifty years after he left. In this presentation, he will discuss his impressions, emotions and conversations he had with Cuban people during his first and several subsequent visits to the island.

Biography: Gerardo M. González, PhD, is Dean Emeritus of the Indiana University School of Education and Professor of Educational Leadership and Policy Studies. González has long been a noted and fearless education activist. On his retirement from the deanship in July 2015, he was recognized as one of the thirty most influential deans of education in the United States. In addition to his current professorial role, he serves as special advisor to the IU Office of International Programs on Cuba initiatives. In August 2018, IU Press released his memoir - A Cuban Refugee’s Journey to the American Dream: The Power of Education.
Meet the recipients who received the University Club Scholarships:

**Taylor Busse**  
Nutrition Science  
Senior, graduating May 2019

My plans after college are unknown currently. I would like to get into research & development for upcoming food products. I have worked in three separate departments at the union since my freshman year. I started at Starbucks for a year, then moved to catering for the next two years and now going into my senior year I have a culinary internship here.  
I love the union because it is the heart of campus. So many events go on here that everyone has a special memory associated.  
Receiving a scholarship from the union displays an award to both my forms of hard work. I put in at least 20 hours a week at work to pay for the hard work I do at school. This can make fitting everything in a challenge, but when I am recognized for it by foundations such as the University Club, it makes it all worth it. Thank you so much for all your help and the honor of being a scholarship recipient.

**Jessie Wang**

I am currently a SPEA student and my major is Law and Public Policy. It might change in the future. I am planning on either switching to Environmental Management or create my own major, Gastronomy.  
I officially started IU at Fall 2017. I was taking classes at Ivy tech during the summer of 2017. My plan is to graduate by 2022. However, due to working full-time and/or consider getting a Master’s degree. It might delay me a year or two.  
My initial plan is to become an immigration and GLBTQ+ rights lawyer. However, my future is constantly changing and uncertain due to political climate and personal interest. I’m taking a day by day approach and fight to see what I can do to make it change. On a lighter note, I would really like to travel outside the states and see what the world is like after IU.  
I work in the Catering department for almost two years.  
Receiving this scholarship relieves my financial stress from tuition and it is also a recognition that there are people out there who see talent and is willing to help and support minority groups like me. This is my first official job after obtaining DACA. It opened many doors for me – it allowed me to go back to school, earn a stable income, have health insurance, retirement account, work and life balance, and many more. I learned how to interact with people in professional and private settings, as well as learning leadership and time management skills.

MAH JONGG

Mah Jongg is a tile-based game that originated in China. It is commonly played by four players. The game is played with a set of 144 tiles based on Chinese characters and symbols, although some regional variations may omit some tiles and/or add unique tiles. In most variations, each player begins by receiving 13 tiles. In turn, players draw and discard tiles until they complete a legal hand using the 14th drawn tile to form 4 melds (or sets) and a pair (eye). The Mah Jongg group meets each Friday. For more information, please contact the group chair.

Currently we have two tables of Mah Jongg and are open to new members who know how to play or are interested in learning the game. We are playing American style but may approach Chinese style later.

EUCHRE

Euchre is a trick-taking card game most commonly played with four people in two partnerships with a deck of 24, 28 or sometimes 32 standard playing cards. It is the game responsible for introducing the joker into modern packs; this was invented around 1860 to act as a top trump or best Bower. It is believed to be closely related to the French game Écarté that was popularized in the United States by the Cornish and Pennsylvania Dutch and to the seventeenth-century game of bad repute Loo.

The group will meet at Meadowood on the last Thursday of the month from 2 to 4 p.m. Bring your own snack, drink and $1 for prizes. You do not need a partner to participate. The first meeting will be on Thursday, October 25.
