--

This Student Health Insurance Plan has been developed especially for Indiana University International Students/Scholars, and their dependents.

(Dependents include eligible spouses, same-sex domestic partners, and children. Please see the Eligibility section for further information.) The Plan provides coverage for illnesses and Injuries that occur on and off campus, and includes special cost-saving features to keep the coverage as affordable as possible.

Indiana University is pleased to offer the Plan as described in this Brochure.

Please keep this Brochure, as it provides a general summary of your coverage. A complete description of the benefits and full terms and conditions may be found in the Master Policy. If any discrepancy exists between this Brochure and the Policy, the Master Policy will govern and control the payment of benefits.

Eligibility

Participation in the Student Health Insurance Plan is mandatory for Indiana University International Students, unless proof of comparable coverage is presented, and a Waiver is filed by the Waiver Deadline. In the absence of a Waiver, your portion of the insurance premium will be automatically assessed on your account with the Bursar. The Waiver Deadlines are listed on page 6.

International students enrolled in G599 at IUPUI during their last term of enrollment will be considered full time for the purposes of insurance.

All international students taking credit hours, visiting scholars and all English language students are required to participate in this Student Health Insurance Plan unless proof of comparable coverage is furnished to the University. Students must be enrolled at Indiana University for at least the first 31 days after the date for which coverage is purchased. Home study, correspondence, Internet classes (with the exception of Nursing PhD candidates) and television courses do not fulfill the eligibility requirements. If and whenever the company discovers the eligibility requirements have not been met, its only obligation is refund of premium, less any claims paid.

Please note: Student Academic Appointees, Post Doctoral candidates and Fellowship Recipients are not eligible for this Plan and are covered under the SAA Plan. If your status changes you will be able to change your coverage with Aetna Student Health to either the SAA Plan or the International Student & Scholar Plan, as appropriate.

Waiver Process/Procedure

Waiver of this coverage will be authorized if the student has evidence of other health insurance coverage under a plan which provides benefits equivalent to this Plan. Students on all campuses should submit their insurance Waiver through the iStart system at *iStart.iu.edu*. The deadline to waive participation in this Plan is 10 days from the first day of classes on your campus. For additional assistance, please contact the appropriate office on your campus.

Please note: International Students who waive enrollment in this Plan will be required to re-verify their medical coverage each semester in order to keep their Waiver valid.

Insured students entering the armed forces of any country will not be covered under the Policy as of the date of such entry. A pro-rata refund of premium will be made for such person, including dependents, upon written request received by Aetna Student Health within 90 days of withdrawal from school.

Pre-Existing Conditions***Definition of a Pre-Existing Condition***

Any Injury, Sickness or condition that was diagnosed or treated, or would have caused a prudent person to seek diagnosis or treatment within six months prior to the Covered Person's effective date of insurance.

Limitations

Expenses incurred by a Covered Person as a result of a Pre-Existing Condition will not be considered Covered Medical Expenses unless no charges are incurred, or treatment rendered, for the condition for a period of six months under the Policy, or, the Covered Person has been covered under the Policy for 12 consecutive months, whichever occurs first.

Special Rules As To Pre-Existing Conditions

If a Covered Person had creditable coverage and such coverage terminated within 63 days prior to the date he or she enrolled (or was enrolled) for coverage in the Policy, then any limitation as to a Pre-Existing Condition under this Policy will not apply for that person.

"Creditable coverage" is a person's prior medical coverage as defined in HIPAA (Health Insurance Portability and Accountability Act of 1996). Such coverage includes coverage issued on a group or individual basis; Medicare; Medicaid; military-sponsored health care; a program of the Indiana Health Service; a state health benefits risk pool; the Federal Employee's Health Benefit Plan (FEHBP); a public health plan as defined in the regulations; and any health benefit plan under Section 5(e) of the Peace Corps Act.

Continuously Insured

Persons who have remained Continuously Insured under the Policy and other prior health insurance policies will be covered for any Pre-Existing Condition that manifests itself while Continuously Insured, except for expenses payable under prior policies in the absence of this Policy. Previously Covered Persons must re-enroll for coverage by the indicated enrollment deadlines in order to avoid a break in coverage for conditions that existed in the prior Policy Year. Once a break in continuous coverage occurs for more than 63 days, the definition of Pre-Existing Conditions will apply.

Utilizing University Health Centers

Your health care needs may best be satisfied in a convenient, cost-effective manner by the health care providers at one of the Indiana University Health Centers. Plan Deductibles are waived for services rendered at the IUB Health Center and IUPUI Health Services. The Health Centers provide care for acute illnesses and certain ongoing conditions, such as asthma, as well as contraceptive counseling and immunizations. A referral is not required to be seen at the Health Centers. However, appointments are preferred, and can be made by calling the number located below. You may be required to pay the charge for all services received at the time of care, and will be given a bill to submit to your insurance company for possible reimbursement if necessary.

Bloomington Campus – IU Health Center

If you are insured under the Student Health Insurance Plan, you can minimize your out-of-pocket expenses by utilizing the IU Health Center. You are not required to pay the annual Deductible or coinsurance for clinic visits in the IU Health Center. However, you may be required to pay certain charges for ancillary testing (e.g., lab test, X-ray). You may be required to pay the charge for all services received at the time of care, and will be given a bill to submit to your insurance company for possible reimbursement if necessary. You may also defer charges to your Bursar account. The IU Health Center, located at the corner of Tenth and Jordan (diagonally across from the Main Library), offers a wide range of services to IU students, spouses, and eligible dependents (12 years old and up). Minor dependents are not eligible to utilize the Health Center because there are no facilities for pediatric patients.

The Health Center is open from 8 a.m. to 4:30 p.m. Monday through Friday, with limited hours during the holidays and semester breaks. Appointments can be made up to one week in advance for general medical care and up to two weeks in advance for the Women's Clinic. If you fail to cancel appointments at least two hours in advance, you will be charged a fee. If you fail to cancel a Counseling and Psychological Service (CAPS) appointment at least 24 hours in advance, you will also be charged a fee. The intent of these fees is to ensure access to students who need care, and you will be reminded of these fees when the appointment is made. The fee will not be waived except for emergencies. The number to dial to either make or cancel an appointment is **(812) 855-7688**. Preferred Provider Network

Aetna Student Health has arranged for you to access a Preferred Provider Network in your local community, as defined below. Acute care facilities and mental health networks are available nationally if you require hospitalization outside the immediate area of the Indiana University School campus.

Preferred Care Provider (or Preferred Provider): A health care provider who has contracted to furnish services or supplies for a Negotiated Charge, but only if the provider is, with Aetna's consent, included in the Directory as a Preferred Care Provider for the service or supply involved, and the class of which the Covered Person is a member.

Non-Preferred Care Provider (or Non-Preferred Provider): A health care provider who has not contracted to furnish services or supplies at a Negotiated Charge.

To maximize your savings and reduce your out-of-pocket expenses, select a Preferred Provider. It is to your advantage to use a Preferred Provider because significant savings may be achieved from the substantially lower rates these providers have agreed to accept as payment for their services. Preferred Providers are independent contractors and are neither employees nor agents of Indiana University, Aetna Student Health, or Aetna Life Insurance Company. You may also contact Aetna Student Health at (877) 437-6512 to obtain a list of participating providers. Additionally, you can obtain information regarding Preferred Providers through the Internet by accessing Aetna's DocFind® service located at www.aetnastudenthealth.com. Click on "Find Your School" and enter **812849** as your Policy Number.

Inpatient Admission Pre-Certification Program

Pre-admission certification is designed to help you receive quality, cost-effective medical care.

- All inpatient admissions, including length of stay, must be certified by contacting Aetna Student Health.
- Pre-Certification does not guarantee the payment of benefits for your inpatient admission. Each claim is subject to medical policy review in accordance with the exclusions and limitations contained in the Policy as well as a review of eligibility, adherence to notification guidelines, and benefit coverage under the student Accident and Sickness Plan.
- If you do not secure Pre-Certification for non-emergency inpatient admissions or provide notification for emergency admissions, your Covered Medical Expenses will be subject to a \$200 per admission Deductible. (This is separate from the annual Plan Deductible.)

Pre-Certification of Non-Emergency Inpatient Admissions

The patient, Physician, or hospital must telephone at least three business days prior to the planned admission.

Notification of Emergency Admissions

The patient, patient's representative, Physician, or hospital must telephone within one business day following admission.

General Provisions

State Mandated Benefits

The Plan will always pay benefits in accordance with any applicable State of Indiana Insurance Law(s).

Subrogation/Reimbursement Right of Recovery Provision

Immediately upon paying or providing any benefit under this Plan, Aetna shall be subrogated to all rights of recovery a Covered Person has against any party potentially responsible for making any payment to a Covered Person, due to a Covered Person's Injuries or illness, to the full extent of benefits provided, or to be provided by Aetna. In addition, if a Covered Person receives any payment from any potentially responsible party, as a result of an Injury or illness, Aetna has the right to recover from, and be reimbursed by, the Covered Person for all amounts this Plan has paid, and will pay as a result of that Injury or illness, up to and including the full amount the Covered Person receives, from all potentially responsible parties. A "Covered Person" includes, for the purposes of this provision, anyone on whose behalf this Plan pays or provides any benefit, including, but not limited to, the minor child or dependent of any Covered Person entitled to receive any benefits from this Plan.

As used in this provision, the term "responsible party" means any party possibly responsible for making any payment to a Covered Person or on a Covered Person's behalf due to a Covered Person's Injuries or illness or any insurance coverage responsible for making such payment, including, but not limited to:

- Uninsured motorist coverage;
- Underinsured motorist coverage;
- Personal umbrella coverage;
- Med-pay coverage;
- Workers compensation coverage;
- No-fault automobile insurance coverage; or
- Any other first party insurance coverage.

The Covered Person shall do nothing to prejudice Aetna's subrogation and reimbursement rights. The Covered Person shall, when requested, fully cooperate with Aetna's efforts to recover its benefits paid. It is the duty of the Covered Person to notify Aetna within 45 days of the date when any notice is given to any party, including an attorney, of the intention to pursue or investigate a claim, to recover damages, due to Injuries sustained by the Covered Person.

The Covered Person acknowledges that this Plan's subrogation and reimbursement rights are a first priority claim against all potentially responsible parties, and are to be paid to Aetna before any other claim for the Covered Person's damages. This Plan shall be entitled to full reimbursement first from any potentially responsible party payments, even if such payment to the Plan will result in a recovery to the Covered Person, which is insufficient to make the Covered Person whole, or to compensate the Covered Person in part or in whole for the damages sustained. This Plan is not required to participate in or pay attorney fees to the attorney hired by the Covered Person to pursue the Covered Person's damage claim. In addition, this Plan shall be responsible for the payment of attorney fees for any attorney hired or retained by this Plan. The Covered Person shall be responsible for the payment of all attorney fees for any attorney hired or retained by the Covered Person or for the benefit of the Covered Person.

The terms of this entire subrogation and reimbursement provision shall apply. This Plan is entitled to full recovery regardless of whether any liability for payment is admitted by any potentially responsible party, and regardless of whether the settlement or judgment received by the Covered Person identifies the medical benefits this Plan provided. This Plan is entitled to recover from any and all settlements or judgments, even those designated as “pain and suffering” or “non-economic damages” only.

In the event any claim is made that any part of this subrogation and reimbursement provision is ambiguous or questions arise concerning the meaning or intent of any of its terms, the Covered Person and this Plan agree that Aetna shall have the sole authority and discretion to resolve all disputes regarding the interpretation of this provision.

Coordination of Benefits

If the Covered Person is insured under more than one group health plan, the benefits of the plan that covers the insured student will be used before those of a plan that provides coverage as a dependent. When both parents have group health plans that provide coverage as a dependent, the benefits of the plan of the parent whose birth date falls earlier in the year will be used first. The benefits available under this Plan may be coordinated with other benefits available to the Covered Person under any auto insurance, Workers’ Compensation, Medicare, or other coverage. The Plan pays in accordance with the rules set forth in the Policy.

Medically Necessary: A service or supply that is necessary and appropriate for the diagnosis or treatment of a Sickness or Injury based on generally accepted current medical practice. In order for a treatment, service, or supply to be considered Medically Necessary, the service or supply must:

- Be care or treatment which is likely to produce as significant a positive outcome as any alternative service or supply, both as to the Sickness or Injury involved and the person's overall health condition. It must be no more likely to produce a negative outcome than any alternative service or supply, both as to the Sickness or Injury involved and the person's overall health condition;
- Be a diagnostic procedure which is indicated by the health status of the person. It must be as likely to result in information that could affect the course of treatment as any alternative service or supply, both as to the Sickness or Injury involved and the person's overall health condition. It must be no more likely to produce a negative outcome than any alternative service or supply, both as to the Sickness or Injury involved and the person's overall health condition; and

- As to diagnosis, care, and treatment, be no more costly (taking into account all health expenses incurred in connection with the treatment, service, or supply) than any alternative service or supply to meet the above tests.

In determining if a service or supply is appropriate under the circumstances, Aetna will take into consideration:

- Information relating to the affected person's health status;
- Reports in peer-reviewed medical literature;
- Reports and guidelines published by nationally recognized health care organizations that include supporting scientific data;
- Generally recognized professional standards of safety and effectiveness in the United States for diagnosis, care, or treatment;
- The opinion of health professionals in the generally recognized health specialty involved; and
- Any other relevant information brought to Aetna's attention.

In no event will the following services or supplies be considered to be Medically Necessary:

- Those that do not require the technical skills of a medical, a mental health, or a dental professional; or
- Those furnished mainly for the personal comfort or convenience of the person, any person who cares for him or her, or any person who is part of his or her family, any health care provider, or health care facility; or
- Those furnished solely because the person is an inpatient on any day on which the person's Sickness or Injury could safely and adequately be diagnosed or treated while not confined; or
- Those furnished solely because of the setting if the service or supply could safely and adequately be furnished in a Physician's or a dentist's office, or other less costly setting.

Negotiated Charge: The maximum charge a Preferred Care Provider has agreed to make as to any service or supply for the purpose of the benefits under the Plan.

Non-Preferred Care: A health care service or supply furnished by a health care provider that is not a Preferred Care Provider if, as determined by Aetna (a) the service or supply could have been provided by a Preferred Care Provider and (b) the provider is of a type that falls into one or more of the categories of providers listed in the Directory.

Non-Preferred Care Provider (or Non-Preferred Provider): A health care provider that has not contracted to furnish services or supplies at a Negotiated Charge.

Non-Preferred Pharmacy: A Pharmacy not party to a contract with Aetna, or a Pharmacy that is party to such a contract but which does not dispense Prescription Drugs in accordance with its terms.

Preferred Care Out-of-Pocket Limit: The amount that must be paid, by the covered student, or the covered student and their covered dependents, before Covered Medical Expenses will be payable at 100% for the remainder of the Policy Year.

The following expenses do not apply toward meeting the Out-of-Pocket Limit:

- Expenses that are not Covered Medical Expenses;
- Expenses for Non-Preferred Care;
- Penalties;
- Expenses for Prescription Drugs; and
- Other expenses not covered by this Policy.

Preferred Care Provider (or Preferred Provider): A health care provider that has contracted to furnish services or supplies for a Negotiated Charge, but only if the provider is, with Aetna's consent, included in the Directory as a Preferred Care Provider for the service or supply involved, and the class of which the Covered Person is a member.

Preferred Pharmacy: A Pharmacy which is party to a contract with Aetna to dispense drugs to persons covered under the Policy, but only while the contract remains in effect, and when the Pharmacy dispenses a Prescription Drug under the terms of its contract with Aetna.

Prescription: An order of a prescriber for a Prescription Drug. If it is an oral order, it must be promptly put in writing by the Pharmacy.

Reasonable Charge: Only that part of a charge which is reasonable is covered. The reasonable charge for a service or supply is the lowest of:

- The provider's usual charge for furnishing it; and
- The charge Aetna determines to be appropriate, based on factors such as the cost of providing the same or a similar service or supply and the manner in which charges for the service or supply are made; and
- The charge Aetna determines to be the prevailing charge level made for it in the geographic area where it is furnished.

In some circumstances, Aetna may have an agreement, either directly or indirectly through a third party, with a provider which sets the rate that Aetna will pay for a service or supply. In these instances, in spite of the methodology described above, the Reasonable Charge is the rate established in such agreement.

In determining the Reasonable Charge for a service or supply that is:

- Unusual; or
- Not often provided in the area; or
- Provided by only a small number of providers in the area.

Aetna may take into account factors, such as:

- The complexity;
- The degree of skill needed;
- The type of specialty of the provider;
- The range of services or supplies provided by a facility; and
- The prevailing charge in other areas.

Sickness: A disease or illness including related conditions and recurrent symptoms of the Sickness. Sickness also includes pregnancy and complications of pregnancy.

Exclusions

This list is only a partial list. Please refer to the School's Master Policy on file at the school for a complete list of exclusions.

4. Expenses incurred as a result of Injury due to participation in a riot. "Participation in a riot" means taking part in a riot in any way, including inciting the riot or conspiring to incite it. It does not include actions taken in self-defense, so long as they are not taken against persons who are trying to restore law and order.

5. Expenses incurred as a result of an Accident occurring in consequence of riding as a passenger or otherwise in any vehicle or device for aerial navigation, except as a fare-paying passenger in an aircraft operated by a scheduled airline maintaining regular, published schedules on a regularly established route.

10. Expenses incurred for plastic surgery, cosmetic surgery, reconstructive surgery, or other services and supplies that improve, alter, or enhance appearance, whether or not for psychological or emotional reasons. This exclusion will not apply to the extent needed to:

- (a) Improve the function of a part of the body that is not a tooth or structure that supports the teeth, and is malformed as a result of a severe birth defect (including harelip and webbed fingers or toes), or as direct result of disease, or surgery performed to treat a Sickness or Injury;
- (b) Repair an Injury (including reconstructive surgery for a prosthetic device for a Covered Person who has undergone a mastectomy) which occurs while the Covered Person is covered under the Plan.

Surgery must be performed in the Policy Year of the Accident which causes the Injury, or in the next Policy Year.

11. Expenses incurred for allergy shots and injections, preventive medicines, serums, vaccines, or oral contraceptives unless otherwise provided in the Policy.

12. Expense incurred for a treatment, service, or supply, which is not Medically Necessary, as determined by Aetna, for the diagnosis, care, or treatment of the Sickness or Injury involved.

This applies even if they are prescribed, recommended, or approved by the person's attending Physician or dentist.

In order for a treatment, service, or supply, to be considered Medically Necessary, the service or supply must:

- As to diagnosis, care, and treatment, be no more costly (taking into account all health expenses incurred in connection with the treatment, service, or supply), than any alternative service or supply to meet the above tests.

In determining if a service or supply is appropriate under the circumstances, Aetna will take into consideration information relating to the affected person's health status, reports in peer-reviewed medical literature, reports and guidelines published by nationally recognized health care organizations that include supporting scientific data, generally recognized professional standards of safety and effectiveness in the United States for diagnosis, care, or treatment, the opinion of health professionals in the generally recognized health specialty involved, and any other relevant information brought to Aetna's attention.

In no event will the following services or supplies be considered to be Medically Necessary:

- Those that do not require the technical skills of a medical, a mental health, or a dental professional; or
- Those furnished mainly for the personal comfort or convenience of the person, any person who cares for him or her, or any person who is part of his or her family, any health care provider, or health care facility; or
- Those furnished solely because the person is an inpatient on any day on which the person's Sickness or Injury could safely and adequately be diagnosed or treated while not confined, or those furnished solely because of the setting, if the service or supply could safely and adequately be furnished in a Physician's or a dentist's office, or other less costly setting.

(Note: This exclusion does not apply to Covered Medical Expenses incurred for the diagnosis or treatment of a Pervasive Developmental Disorder if such expenses are specifically indicated on a Physician's treatment plan.)

13. Expenses incurred for any services rendered by a family member of a Covered Person's immediate family or a person who lives in the Covered Person's home.

14. Expenses incurred for blood or blood plasma, except charges by a hospital for the processing or administration of blood.

16. Expenses incurred for the repair or replacement of existing artificial limbs, orthopedic braces, or orthotic devices.

17. Expenses incurred for custodial care. Custodial care means services and supplies furnished to a person mainly to help him or her in the activities of daily life. 25. Expense incurred for which no member of the Covered Person's immediate family has any legal obligation for payment.

26. Expenses incurred for, or in connection with, procedures, services, or supplies that are, as determined by Aetna, to be experimental or investigational. A drug, a device, a procedure, or treatment will be determined to be experimental or investigational if:

- There are insufficient outcomes data available from controlled clinical trials published in the peer-reviewed literature, to substantiate its safety and effectiveness, for the disease or Injury involved; or

- A recognized national medical or dental society or regulatory agency has determined, in writing, that it is experimental, investigational, or for research purposes; or
- The written protocol or protocols used by the treating facility, or the protocol or protocols of any other facility studying substantially the same drug, device, procedure, or treatment, or the written informed consent used by the treating facility, or by another facility studying the same drug, device, procedure, or treatment, states that it is experimental, investigational, or for research purposes.

However, this exclusion will not apply with respect to services or supplies (other than drugs) received in connection with a disease, if Aetna determines that:

- The disease can be expected to cause death within one year, in the absence of effective treatment; and
- The care or treatment is effective for that disease, or shows promise of being effective for that disease, as demonstrated by scientific data. In making this determination, Aetna will take into account the results of a review by a panel of independent medical professionals. They will be selected by Aetna. This panel will include professionals who treat the type of disease involved.

Also, this exclusion will not apply with respect to drugs that:

- Have been granted treatment investigational new drug (IND), or Group c/treatment IND status; or
- Are being studied at the Phase III level in a national clinical trial, sponsored by the National Cancer Institute;
- If Aetna determines that available, scientific evidence demonstrates that the drug is effective, or shows promise of being effective, for the disease.

31. Expenses incurred for gastric bypass and any restrictive procedures for weight loss.

33. Expenses incurred for gynecomastia (male breasts).
34. Expenses for charges that are not Reasonable Charges, as determined by Aetna.

Expense for: (a) care of flat feet; (b) supportive devices for the foot; (c) care of corns, bunions, or calluses; (d) care of toenails; and (e) care of fallen arches, weak feet, or chronic foot strain; except that (c) and (d) are not excluded when Medically Necessary, because the Covered Person is diabetic, or suffers from circulatory problems.
37. Expenses incurred for Elective Treatment or elective surgery except as specifically provided elsewhere in the Policy and performed while the Policy is in effect.
38. Expenses arising as a result of a Pre-Existing Condition.

Any of the exclusions above will not apply to the extent that coverage is required under any law that applies to the coverage.

Extension of Benefits

If a Covered Person is confined to a hospital on the date his or her insurance terminates, expenses incurred after the termination date and during the continuance of that hospital confinement shall be payable in accordance with the Policy, but only while they are incurred during the 90-day period following such Termination of Insurance.

External Review

Aetna has developed an external review process to give Covered Persons an added option of requesting an objective and timely external review of certain coverage denials. Once the Aetna internal coverage decision review process is exhausted, eligible Covered Persons may elect external review if the coverage denial for which the Covered Person would be financially responsible involves more than \$500 (or the amount specified by your state) and is based on lack of Medical Necessity or on the experimental or investigational nature of the proposed service or treatment.

An external review organization will refer the case to be reviewed by an independent Physician with appropriate expertise in the area in question. After all necessary information is submitted, external review generally will be decided within 30 days of the request. Expedited reviews are available when a Covered Person's Physician certifies that a delay in service would jeopardize the Covered Person's health. Once the review is complete, the Plan will abide by the decision of the external reviewer. Certain states mandate external review of additional benefit or service issues, or require a filing fee. In addition, certain states mandate the use of their own external review providers for Medical Necessity and experimental/investigational coverage decisions. For further details regarding your Plan's grievance and external review process, call the Customer Services toll-free number on your ID card, or visit Aetna's website at www.aetna.com, where you may obtain an external review request form. You may also call your State Insurance or Health Department for additional information regarding state mandated external review procedures.
