Supplemental Life Insurance Plan
Plan Summary

This is an optional benefit for employees who wish to purchase life insurance at group rates, through payroll deductions. This coverage is in addition to the Basic Life Insurance Plan (generally two times base salary to a maximum of $50,000 of insurance) provided by Indiana University.

Eligibility

Full-time Appointed Academic and Staff Employees.

(“Salary” is the employee’s budgeted annual base salary, rounded down to the even $1,000.)

The amount of insurance will depend on the option selected, and will change as the budgeted annual base salary changes.

*The difference between Guaranteed Issue and Maximum Coverage* (there is no difference in premium):
A person makes $51,000/year in base salary. If they were to choose option two (2X Salary) with a Guaranteed Issue of up to $100,000, their beneficiary would receive $100,000 upon their death. If they choose the Maximum Coverage option, their beneficiary would receive the full amount of two times their base salary, which would be $102,000. To enroll in Maximum Coverage, a Medical History Statement is required.

Enrollment

Newly-hired employees have 30 days to enroll, up to the Guaranteed-Issue amount, regardless of their medical status. Employees who would like to exceed the Guaranteed-Issue amount and employees who would like to enroll after 30 days with either the Guaranteed Issue or Maximum Coverage amount may do so only by proving they are in good health. This requires that the employee submit the Medical History Statement form to be approved by The Standard Insurance Company.

Premiums

Premiums will be deducted from the employee’s first paycheck each month. Premiums are based on the employee’s attained age, salary, and option level. Premium amounts will automatically change as the employee gets older.

Effective Date

Coverage begins the month of the first payroll deduction.

*Effective April 1, 2007*

**Premium Calculation**

Multiply annual budgeted base salary (rounded down to even $1,000) times the level of coverage selected (One, Two, Three or Four times salary), divide by 1,000 and multiply by the appropriate premium rate from the chart above.

**Example:**

Base Salary = $23,700  Age = 32  Level of Coverage = Two times salary

\[
( \frac{\text{Base Salary}}{\text{rounded down to nearest }$1,000} \times \text{Level of Coverage} = \frac{\text{Monthly Premium}}{\text{Premun Rate (see chart above)}} = \text{MONTHLY PREMIUM})
\]

\[
\frac{\text{Base Salary} \times \text{2}}{\text{1,000}} = \frac{\text{46} \times \text{.06}}{\text{BASELINE} \text{PREMIUM}} = \text{2.76}
\]

**Calculation:**

\[
( \frac{\text{Base Salary}}{\text{rounded down to nearest }$1,000} \times \text{Level of Coverage} = \frac{\text{Monthly Premium}}{\text{Premun Rate (see chart above)}} = \text{MONTHLY PREMIUM})
\]
