2013 INTERNATIONAL IZATT-CHRISTENSEN AWARD IN MACROCYCLIC CHEMISTRY

The International Advisory Committee invites nominations for the International Izatt-Christensen Award in Macrocyclic Chemistry. Professor Izatt and the late Professor Christensen conceived the International Symposia concept and organized the first five Symposia starting in 1977.

IBC Advanced Technologies, Inc., of American Fork, Utah, USA, is the sponsor of the award. The winner will receive a $2,000 honorarium and up to $1,000 for travel expenses.

This award is open to anyone working in the area of macrocyclic chemistry who has not received an international award of $25,000 or more.

Six copies of nomination materials, which should include curriculum vitae, a publication list, a five page nomination statement, and up to three letters of recommendation from other scientists who know of the nominee's work, should be sent by email if possible no later than 1 March 2013 to:

Jerald Bradshaw
Professor Emeritus
Department of Chemistry
Brigham Young University
Provo, UT 84602
801 422 3667 (Secretary)
